Important Notes

Each subject costs \$48, and only needs to be purchased once to allow it to be photocopied or printed an unlimited number of times, subject to the restrictions outlined below.

Please help us to maintain the exams' teacher-only status by abiding by the following: you may reproduce the exam and its solutions through printing and photocopying (but not email or other electronic means) for teachers and students within your school. Any other use or distribution is strictly prohibited. If a school is found to have allowed their exams to become widely available in any form, they may be prohibited from purchasing exams in the future.

Teacher-Exclusive exams will only remain exclusive until the end of the year, after that they will be freely available on the Engage Education website.

All exams and their solutions are distributed via email in PDF format. All exams and solutions contain a unique tracking tag that links that file to a particular school to aid in our enforcement of the above restrictions.

Some exams are not available for immediate distribution, however, we expect most exams to be available shortly.
